PROJECTS / OPEN-SOURCE

TLDR-PAGES | [LINK](#)

Markdown, Python, Shell

As an active maintainer and contributor to the TLDR Pages project, I help provide simplified and community-driven man pages for command-line tools. This initiative offers practical examples and concise explanations, making it easier for users to understand and utilize various commands. With thousands of users relying on TLDR Pages for quick references, my contributions include enhancing documentation and adding new command pages. I collaborate with a dedicated community to ensure the content remains accurate and relevant, empowering users to navigate command-line interfaces more effectively.

CERTIFICATIONS

- Foundational C# with Microsoft - **MICROSOFT & FREECODECAMP**
- Python - **KAGGLE**
- The Legend of Python - **CODEDEX**
- Intro to Programming - **KAGGLE**
